Cosmetic Brow Tattooing

Our philosophy at Lux Spa Cosmetic Tattooing is to enhance your natural beauty. We understand every individual is unique and so are your needs. We tailor each treatment to your individual features, bone structure and natural pigments, working with you to create your desired outcome.

Eyebrow tattooing is a semi-permanent treatment where pigment is implanted into the skin to create more symmetry, balance and definition. The technique used, colour and shape are custom designed to suit every individual. Each treatment is completed by one of our highly skilled cosmetic tattoo artists, Lindsay or Shayla.

Both of our cosmetic tattoo artists have years of experience within the beauty industry. Lindsay and Shayla have completed their cosmetic tattoo training with the highly skilled Georgie Westley, Owner & Trainer of Distinctive Features Cosmetic Tattoo & Beauty, who was also awarded 2020 Australian Cosmetic Tattoo Artist of the Year.

Reiki | 60 mins

Mon - Fri \$130 | Sat - Sun \$143

Reiki, pronounced ‘ray-key’, is a Japanese form of therapy developed in the late 19th century, that aims to increase energy levels and promote relaxation and wellbeing. The underlying philosophy of reiki is that if a person’s energy is low, they are more likely to be unwell or stressed. If it is high, however, they are more capable of being happy and feeling well. Reiki will not cure illnesses or disease, but it may help your body to feel more relaxed and peaceful. You will be asked to lie on the massage table in your Lux spa gown as this treatment is performed fully clothed. Your therapist places their hands on or just above your body in sequences of positions.

Shiatsu | 60 mins

Mon - Fri \$100 | Sat - Sun \$110

Shiatsu, which translates as “finger pressure” is a deeply relaxing form of Japanese acupressure that works with the body’s natural capacity for self healing. Based on the holistic theory of Chinese Medicine, Shiatsu uses pressure and stretching on various parts of the body to rebalance the flow of Qi (life energy). This has a deeply therapeutic effect upon the body and mind, releasing tension from joints and muscles, strengthening the internal organs, immune and nervous systems. In addition, Shiatsu creates a deeply calming space for the receiver to slow down, restore balance and allow healing to take place.
